### Measurement Guide

\*Please note that our dresses are made to order and not custom made  
\*Your measurements will be matched to the appropriate size on our size chart

**Bust:** With your arms at your side, place the tape measure around the fullest part of your bust, under your arms. Make sure that the tape measure remains parallel to the floor.

**Waist:** While standing, wrap the tape measure around your natural waistline (the slimmest part of your torso). Keep the tape comfortably loose.

**Hip:** While standing with your feet together, wrap the tape measure around the fullest part of your body between your waist and your knees. This is approximately 8 inches below your waist. Make sure that the tape measure remains parallel to the floor.
